

# Express it!

## Art Workshops

You can change this up by asking them to paint an alien face or a clown face.

### Do-It-At-Home activity: Funny Face

Ages: 5-7yrs | Equipment: A4 or A3 paper (5-8 per child), Paint, Paint tray | Time: from 15mins

#### Step 1

Before you begin, pre-mix a lot skin coloured paint as this is a tricky colour for kids to get right.

#### Step 2

Next, with all the paper, brushes and paints ready, tell your child they are going to make a funny face, the funniest face they can think of. Ask them to first make a large circle or face shape on the page with any colour they like.

#### Step 3

Next you call out the elements of the face: Nose, 1 Ear, 1 Eye, etc. Mix up the order to give them the chance to add quirky elements to their painting. Now see if they can do another!
